

CSCD 210

Lab 17

For this lab we will be creating a deck of cards, shuffling that deck, dealing 2 cards to 2 players and then figuring out who has the “better” score.

Results.txt shows my output run. Your run will probably never match mine.

To Turn In

Submit a zip file

- All package structures and Java files needed to compile your code
- Include an output captures from running your program named cscd210Lab17out.txt.

Your zip will be named your last name first letter of your first name lab17.zip

(Example: steinerslab17.zip)
